

## Department of Electronic and Computer Engineering

### FYP presentation day schedule – Spring Semester 2018

#### Introduction

As part the final year project (FYP) presentation schedule, all students are to create and present a poster describing their project work as well as provide a final bench demonstration. The FYP presentation day in Spring Semester 2018 will be Wednesday teaching week 9 (21.03.2018). The posters will be submitted to the department in electronic document (PDF) format and the department will arrange for all posters to be printed at a discount rate. These can then be collected directly from Troy printers and paid for on collection. In order for the posters and final reports to be submitted and printed on-time, the following timetable is to be followed.
